Unlimited Solutions at a Single Point

50 years with Defne

Founded in Antalya in 1973, the company began with turnkey construction and restoration works for tourism investments.

In 1984, a wood workshop was established to provide specialized detailing solutions for related construction projects. Due to the increasing demand for restoration works, the workshop has since operated independently, completing 13 restoration projects in Kaleiçi, Antalya.

In 2000, the headquarters moved to Ankara, and the company has since completed large-scale decoration and restoration projects, including applications for embassies, residences, universities, and hotel complexes, both domestically and internationally.

Principles of Work

- Take over from architectural/interior design and provide necessary detailing through experienced technical staff.
- Presentation of detailed shop-drawings and application projects to design office/contractor.
- Execute manufacturing in accordance with the approved work schedule.
- Transportation of goods approved by QC of Contractor.
- Application period in accordance with work schedule and under experienced supervision.
- Delivery of as-built drawings.

All work is carried out aesthetically, meeting the contractor's specific requirements, within the agreed work program, and executed with high-quality craftsmanship.

Specialized in composite and custom fixed or movable furniture for VIP areas and public spaces, applicable to both new constructions and restoration projects.
